User Stories

Epic 1: User Registration & Profile

US-01: User Registration

As a job seeker,
 I want to create an account using email/phone,
 so that I can apply for jobs and get recommendations.

Acceptance Criteria:

- User must enter name, email/phone, and password.

- Email/phone must be validated.

- The system shows a success message on registration.

- User is redirected to the login page.

US-02: Profile Creation

As a job seeker,
 I want to add my skills, experience, and resume,
 so that I receive relevant job recommendations.

Acceptance Criteria:

- Resume upload allowed (PDF/DOC).

- Mandatory fields: Skills, Experience Level.

- Profile completeness % is shown.

Epic 2: Job Search & Job Listings

US-03: Job Search

As a job seeker,
 I want to search for jobs using filters,
 so that I can find relevant opportunities.

Acceptance Criteria:

- Filters: Location, Skills, Experience, Salary.

- Results update dynamically.

- Invalid filters show 0 results.

US-04: Job Details Page

As a job seeker,
 I want to view full job details,
 so that I can decide to apply or save the job.

Acceptance Criteria:

- Show title, company, skills, description.

- Show apply & save buttons.

Epic 3: Recommendations

US-05: Personalised Recommendations

As a job seeker,
 I want to get recommended jobs,
 so that I don't waste time searching manually.

Acceptance Criteria:

- Recommendations based on skills + experience in profile.

- Minimum 5 jobs shown if available.

- Updates after profile edit.

Epic 4: Application Flow

US-06: Apply to Job

As a job seeker,
 I want to apply to a job in one click,
 so that I can quickly submit my application.

Acceptance Criteria:

- Resume auto-sent to recruiter.

- Success message displayed.

- Job moves to "Applied Jobs" list.

US-07: Application Tracking

As a job seeker,
 I want to track my application status,
 so that I know if I'm shortlisted or rejected.

Acceptance Criteria:

- Status options: Applied → Shortlisted → Interview → Offer → Hired/Rejected

- Notification on status update.

Epic 5: Recruiter Flows

US-08: Job Posting

As a recruiter,
 I want to create a new job post,
 so that candidates can apply.

Acceptance Criteria:

- Mandatory fields: Title, Description, Skills, Salary Range

- The recruiter dashboard shows the created jobs

US-09: View Applicants

As a recruiter,
 I want to view all applicants for each job,
 so that I can shortlist candidates.

Acceptance Criteria:

- The list shows name, skills, resume, and experience

- Filters: Skills, Experience, Status

US-10: Update Application Status

As a recruiter,
I want to update a candidate's status,
so that they move to the correct hiring stage.

Acceptance Criteria:

- Only the recruiter can update

- Candidate receives notification

- The status must change in the candidate dashboard
